

EXAM 70-291

IMPLEMENTING, MANAGING, AND MAINTAINING A MICROSOFT WINDOWS SERVER 2003 NETWORK INFRASTRUCTURE

ADVANCE YOUR CAREER!

With our cutting edge Video/CD-ROM series, which includes our interactive hands-on training simulations, students will learn from real-world scenarios taught by our expert instructor.

The 70-291 exam (Implementing, Managing, and Maintaining a Microsoft Windows Server 2003 Network Infrastructure) is one of the four core exams in Microsoft's MCSE 2003 certification program as well as a core exam in the MCSA 2003 program. This certification exam measures your ability to implement, manage, and maintain a Microsoft Windows 2003 network infrastructure. In the Specialized Solutions training course, our expert instructor uses hands-on training to prepare the student to implement server IP addressing, name resolution, network security, and more. After completion of our course, the student will possess the skills and knowledge to pass the exam guaranteed!
